Q1 — Executive Answer

Do revenue, order volume and reviews tell the same story?

Growth is strong, but customer satisfaction is not perfectly synchronized.

Revenue and order volume rise through the available period, with a pronounced Nov-2017 peak. Review scores move differently: the source timeline shows a visible dip in Feb-Mar 2018 while volume remains elevated.

- Revenue peak
- Orders peak
- Review low

Nov-2017 • \$1.16M
Nov-2017 • 7,282
Mar-2018 • 3.85 ★

Q3: State Logistics Bottlenecks

Selected states | delivery buffer, freight, satisfaction and late rate

State	Orders	Days early	Freight	Review	Late
AL	397	8.0	\$38.58	3.83	24%
